It's Cholera that Kills Your Hogs

The U. S. Government Swine Experts claim that Hog Cholera kills about 90% of the hogs that die in the Corn Belt Section.

"Cholera Cannot Be Cured"—BUT

It can be prevented by vaccinating your pigs with Union Serum and Virus.

Union Serum is made under United States Government License No. 51. We spare no money to make the very best Serum obtainable. Our plant is the largest in America—and one of the best equipped in America.

We employ eight veterinarians in the manufacture of our Serum. Every step in the process of manufacture is in accordance with the most modern views of sanitation.

Insist on Having Union Serum

If there are 500 head or more pigs in your neighborhood to be vaccinated, write us and we will arrange to have either your local veterinarian do the work or send one of our Expert Veterinarians. It must be properly done to insure success.

Write us your needs, giving number and weights of your pigs and we will do the rest.

What We WON'T Do to Get

Customers

We like to do business—we enjoy it—nothing fascinates us more than trading. But we will not stoop to deceit and deception to get business.

We will not over-state, over-talk and over-promise. And although we do not go to every extreme to get customers, we do go to every extreme to hold them.

Our Watches, Clocks, Jewelry, Diamonds and Silverware would win you even if our methods didn't.

But we keep our "conduct" abreast of our efforts, and therefore you can deal with us with satisfaction, with profit, with pleasure—and with safety.

LeMars Semi-Weekly Sentinel

Published Tuesdays and Fridays

For forty-five years the LeMars Sentinel has brought each week to a large share of the homes in Plymouth county a review of the news in which its readers are most interested. It has been known all over the county for more than a generation as a reliable local newspaper which furnished an accurate report of the happenings of its home county.

At no time since the Sentinel was established has it given its readers a better summary of the news of Plymouth county than today. Correspondents in almost every town and township in the county contribute the news of their localities to one or both of its semi-weekly issues. The general county news report, the court news and much information concerning the county business which is of interest to all taxpayers are thoroughly covered and the Semi-Weekly Sentinel today maintains the record of nearly half a century for furnishing its readers the best report obtainable of the news of Plymouth county.

As an advertising medium for anyone who has something to sell the people of Plymouth county, the Sentinel is not equaled. It will take your advertising announcement into half the homes of the county for little more than other papers will charge you for placing it before a much smaller number of readers. Whether it be a want advertisement or a full page announcement the Sentinel offers the best medium of giving it publicity, if it is intended for the people of Plymouth county. For farm sale announcements and for farmers want and sale advertisements the Sentinel columns have proven particularly effective. Whether you wish to buy something for the farm or have stock, grain or machinery to sell the Sentinel will, for a few cents, tell half the farmers of Plymouth county about it.

It is the desire of the editor of the Sentinel to make it so good a local newspaper that no person living in Plymouth county can afford to be without it. In this endeavor he has the support of an efficient corps of local reporters and county news correspondents. If you are not a Sentinel reader a postal card request will bring a sample copy, or \$1.50 in advance will pay for it a year, 104 copies for less than a cent and a half a copy.

Plymouth County, Iowa, Corn Lands

THREE may be other land in the state of Iowa, or even in the United States, as good as that of Plymouth County, but there is none better. ¶ The man who owns a Plymouth County farm may well feel proud and independent as it is a sure crop producer, and constantly advancing in value. I have resided in Plymouth County for thirty-seven years and have seen no crop failure as yet. I am in a position to select for my customers and prospective buyers the best bargains in the county. I know the actual value and quality of land in any part of the county. ¶ If you wish to buy a farm, write or see me, as I may have just what you are looking for.

Farm Loans

If you wish to make or renew a farm loan, see me as I may be able to quote a rate that will appeal to you. It is always worth while to find out.

Investments

If you have money to place out on good security I am able to furnish you with high grade first mortgage farm loans, which is one of the best securities that can be had. Write or see me and I will advise you what I have to offer in such securities.

List of my best bargains will be mailed to anyone interested and asking for them. Yours for business,

Mathew R. Faber, Investment Banker, Remsen, Iowa
